New Hotel.

The fine three-story brick building near the foot of Haymount having been completed, was opened on Monday last, 1st inst., for the accommodation of patrons. It is called the "Dobbin House"-a popular name-and after a fair trial we believe the House will be equally as popular. It is handsomely and superbly furnished, and has all necessary conveniences for the comfort of boarders. Mr Powers will be found an agreeable and obliging landlord.

Some of the advantages of Advertising .-A gentleman who advertised in the Carolinian a house to rent, told us the other day that he had had applications enough to enable him to rent a dozen houses if he had them-that he got forty dollars more for the house this year than he did last. Made forty dollars by paying two for advertising!

We collected a small bill from a merchant who has recently commenced advertising, and he informed us that he considered the money well-spent, for, said he, "many of my country Baptist Church. friends did not know that I was doing business in Fayetteville until I advertised, when they come to me and expressed surprise that they had not found me out"-"hereafter," said he, "I intend to keep my business before the public." He is right, for a man that don't advertise is very apt to be considered " out of town".

Again. A gentleman who advertised a negro woman for sale, has had so many applications for her that we think he had now better notify the public that she is sold in order to stop inquiries. The above are only some instances.

N. C. University.—The Standard says that the Trustees of the University have appointed Mr Ashbel G. Brown, who has, during the last ten years, been Tutor of ancient languages, and discharging his duties with universal acceptance, Adjunct Professor of the Latin and Greek languages.

Richard H. Battle and William R. Wetmore were appointed Tutors to supply the vacancies occasioned by the resignation of Kemp P. Battle, Esq., and the Rev. Richard Hines.

THOMAS W. DORR, or "Governor Dorr" as he has been called, of Rhode Island, died on the 27th ult. at Providence. He was generally known as the leader of the "Dorr insurrection" to a small portion of the population. A party was organized which called a convention in the name of the people, and adopted a more liberal Costitution, and under it Mr Dorr was elected Governor. > RATHER IGNORANT.-However well informed the English press may be in regard to subjects generally, they appear to be badly posted up about the nature and manner of our Government. The Legislature is again in full blast. The boy. House had been setting for two or three days last week, but the Senate did not succeed in getting a quorum until Monday. The members have come back with renewed energy to their labors. On Monday Gov. Bragg took the oath of office, administered by Chief Justice Nash, in the presence of both Houses of the General Assembly. The Governor looks in fine health, and is in good spirits, and will likely be in fine tune to give Gen. Nothing of importance was done the first part of the week. The House has been industriously engaged upon the Revised Statutes. There are many important bills to be acted on. Various projects for Banks, and for rechartering the old Banks. Mr Caldwell is urging his plan of a Bank. I am not familiar with the details of it to pass an opinion. Caldwell is, however, a clever fellow, of no inconsiderable ability, and whatever his notions may be about banking, Guilford has reason to be proud of him.

Your member, Mr Shepherd, stands high here, and, as well as Mr McDuffie, is quite popular. Mr Cofield is also a good representative. In truth, the lower counties have all sent clever delegations. Faison, of Sampson, is an active, useful member, of whom Sampson may be proud.

The Senate will be an interesting place from the 5th January, when the "big bills" come on to be discussed.
